

Demonstration of Proposed Features

Date 29 September 2026

Team ID SWTID-2026-2056

Project Name Incident Client Scripts & UI Policies

Maximum Marks 1 Mark

Demonstration of Proposed Features:

This document captures the features proposed for the Incident Client Scripts & UI Policies project during the planning phase and tracks whether each feature was implemented and demonstrated. It provides a record of the form behavior, validation, and field controls delivered in the project.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	High Impact Control UI Policy	Makes the Assignment group field mandatory when Impact is set to 1 – High.	Implemented	Yes	Verified on the Incident form.
2	Reverse if False Behavior	Reverses the UI Policy action when the condition is no longer true.	Implemented	Yes	Checked by changing the Impact value.
3	Incident Form Field Control	Controls field behavior dynamically based on configured Incident conditions.	Implemented	Yes	Validated through form testing.
4	Client-Side Validation	Uses Client Scripts to validate or respond to user input on the Incident form without submitting it.	Partial	Yes	Demonstrated for the configured script behavior.
5	Dynamic User Experience	Improves data entry by applying appropriate field behavior based on user actions and	Implemented	Yes	Tested with relevant Incident scenarios.

		incident conditions.			
6	Functional Testing and Demonstration	Tests the configured Client Scripts and UI Policies and demonstrates their expected behavior.	Implemented	Yes	Results reviewed during the project demonstration.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	5
Total Features Demonstrated	6
Overall Implementation Rate (%)	83.3%
