

Acceptance Testing

UAT Execution & Report Submission

Date	28 September 2025
Team ID	SWTID-2026-2056
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the Implement Client Script & UI Policy (Incident) project at the time of the release to User Acceptance Testing (UAT). It summarises defect resolution status and the results of test cases executed against UI Policies and Client Scripts on the ServiceNow Incident form.

2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level, and how they were resolved.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	2	3	1	2	8
Duplicate	0	1	2	0	3
External	1	0	1	0	2
Fixed	4	5	6	8	23
Not Reproduced	0	1	0	1	2
Skipped	0	0	1	1	2
Won't Fix	0	1	2	1	4
Totals	7	11	13	13	44

Notes on severity for this project:

Severity 1 – Critical: Form submission blocked incorrectly, data loss risk, or security bypass.

Severity 2 – Major: UI Policy Reverse-if-false fails, mandatory fields not enforced, wrong field visibility.

Severity 3 – Minor: Cosmetic issues (colour, message text), performance lag on onChange.

Severity 4 – Trivial: Typos in alerts, non-critical documentation gaps.

3. Test Case Analysis

This report shows the number of test cases that have passed, failed, and untested for the Client Script & UI Policy (Incident) implementation.

Section	Total Cases	Not Tested	Fail	Pass
UI Policy – State = Resolved	8	0	0	8
UI Policy – Reverse if false	5	0	0	5
UI Policy – Major Incident Visibility	6	0	0	6
UI Policy – Caller Restricted View	4	0	0	4
Client Script – onLoad	5	0	0	5
Client Script – onChange (Priority colour)	6	0	0	6
Client Script – onChange (Auto-populate)	5	0	1	4
Client Script – onSubmit Validation	7	0	0	7
Client Script – GlideAjax / Server Lookup	4	0	0	4
Cross-browser / Service Portal Compatibility	6	1	0	5
Security Alignment (ACL / Data Policy)	3	0	0	3
Totals	59	1	1	57

Summary: 57 of 59 test cases passed (96.6%). One failure related to intermittent auto-populate timing on slow networks; one case pending final Service Portal re-test. No Severity-1 open defects remain.
